

# California OES Weather Threat Briefing

Wednesday, December 26, 2018  
9:00 AM PST

Day 1 No significant weather or water impacts expected.

---

National Weather Service  
Western Region Headquarters  
Regional Operations Center  
Salt Lake City, UT

# Key Points

12/26/18 - 01/01/19

## Wednesday

- High surf along the southern CA coast through today with dangerous RIP currents.
- Windy across Joshua Tree National Park through mid day with difficult driving conditions.
- Otherwise, dry weather will continue with no significant weather or water impacts expected.

## Thursday Night - Saturday

- Winds will become breezy at times over the southern portions of the Inland Region. Winds will be out of the north at 20-30 mph at times with the strongest winds expected over ridge tops and through canyon passes Saturday.

## Sunday - Tuesday

- Continued dry conditions. No significant weather or water impacts expected at this time.
